

## **Senior Environmental Scientist**

### ***About the company***

Eliot Sinclair & Partners Ltd are a leading surveying, engineering and planning consultancy based in Christchurch, New Zealand. The company was established in 1932 and has grown to become a trusted consultant providing a diverse range of services to both private and public sector clients.

Our staff are known for their expertise, depth of knowledge, and use of innovative technology. We are constantly collaborating together, creating a vibrant, dynamic work environment where there are always opportunities to learn. We support our staff with cutting-edge technology and excellent on-the-job training and mentoring.

### ***About the role***

We are looking for a Senior Environmental Scientist to lead our small, successful team of environmental specialists and be responsible for management of projects including soil, ground and surface water investigation and monitoring, contaminated land assessment and remediation.

### ***About you***

You will be a Certified Environmental Professional with significant experience (ideally 10+ years) in contaminated land assessment and management. You will be:

- An exceptional communicator, with a high level of commercial acumen and experienced in managing risk
- A team-player, able to work effectively with others and be "hands-on" when the need arises
- Enjoying mentoring and training others
- Able to identify new business opportunities and build long-term relationships with current and future clients

We will look after you by providing an attractive salary package, a range of employee benefits such as health insurance, and a fantastic work environment.

### ***Culture***

At Eliot Sinclair we strive for success, take pride in our achievements and are passionate about what we do and the industry we work in.

We are a team of around 90 staff who come from a range of different cultures. We enjoy a dynamic, harmonious, family-friendly work environment.
