

Geotechnical Engineer

About the company

Eliot Sinclair & Partners Ltd is a surveying, engineering and planning consultancy based at Tower Junction in Christchurch. The company has been locally owned and operated since its establishment in 1932 and enjoys an excellent reputation for its high level of expertise. We support our staff with cutting edge technology and excellent on-the-job training and mentoring. The staff at Eliot Sinclair greatly benefit from being a part of a multi-disciplinary consultancy with all the teams working closely together.

About the role

We are looking for a geotechnical engineer with at least five years of local experience to join our geotechnical team and get involved in slope stability, foundation design, retaining wall design, earthworks supervision, pavement design and computer modelling.

The ideal candidate will be a recently Chartered Professional Engineer (CPEng) or will be working towards applying to IPENZ for chartership.

Skills and experience

- Tertiary qualification in civil engineering specialising in geotechnical engineering
- At least 5 years of relevant experience
- Ability to work in a team
- Capable in handling responsibility
- Good communication skills
- Project management

Culture

At Eliot Sinclair we strive for success, take pride in our achievements and are passionate about what we do and the industry we work in.

We are a team of around 100 staff with a supportive, open-door, family-feel and enjoy excellent work conditions. Our staff come from a range of different cultures and enjoy a dynamic, harmonious, family-friendly work environment. We operate a flexible work practice with a flat, collegial structure with direct access to all levels in our organisation.

We value our staff and encourage them to be innovative and to strive to be at the top of their field.
